We have now four highly efficient Public Schools not including the Convents, which do so much for the education of girls. Government Schools are penetrating into the outlying villages. The Education Code is working most smoothly, and seldom gives rise to any question which cannot be easily settled." The subject of female education is now about to be advanced a very considerable stage by the establishment of a Government Central School for girls. The scheme has been approved by the Secretary of State, and the Government; we observe, is at present advertising for premises for the new institution. The Governor says that the various objections to the establishment of such a school which he has teard urged in the colony or, which have been suggested by his own experience were in his opinion entirely overcome by an able report of Dr. Errat, the Inspector of Schools. This report. dated 5th July, 1889, we reprinted in yestorday's issue. It will doubtless have been | ried off by them. BANGKOK.

A terrible accident occurred near the Po Office on the 5th inst., about 10 a.m. I appears that in the removal of one of the old forts on the tity wall, to prepare the site for the new buildings to be erected there, the workmen had been working under the outer wall. The high tide and the recent rains had possibly severed the connection of the wall with the fort for without warning and while the men were employed near it the wall toppled over and fell, burying them under a mass of ruins. Immediate efforts were made to extricate the workmen. but four were killed almost outright and severa were very seriously injured.

Mr. Henry Norman, the special correspondent of the Pall Mall Gasetts arrived at Bangkok on the 2nd inst. per steamer Hydra from Bingapore: Not alone the reputation of his journal but his own personal character makes it evident that Biem will at last see a disinterested and trathful estimate of her manners and customs published to the world, as well as a truthful report of her progress and capabilities without the imputation of interest or prejudice. The length of Mr. Norman's stay in Siam is indefinite, but we understand that every famility will be afforded him to get at the bottom facts in every respect. Having now made careful enquiries we have great pleasure in putting our readers on repport as regards the Legal Advisor of H. M. the King of Siam who, it was stated, "had gone to Florida. Mr. Michell had no more intention, is now returning, we believe, in a simple matter of fact steamer. - Bangkol Times.

PAHANG EXPLORATION AND DE-VELOPMENT COMPANY, LIMITED.

Latest reports from Pahang concerning the above Company are most encouraging. We published last week a brief comment from one of the home papers of the prospect the Company already showed and latest accounts from the best authority confirm the opinion that the Company has a bright future, justifying the advance of the shares to a quarter per cent. premium. Unlike mining companies the present undertaking deals chiefly with timber, and the data upon which calculations can be based are more tangible and therefore more reliable. The labour of organising a large concern is indeed immense, and the cost of machinery not inconsiderable, yet This was a claim for \$25 alleged to be due as with all these, the expenditure on capital account bears no comparison with that demanded by min-
